SUMMARY

Third-year Computer Engineering student passionate about building user-first web applications that combine thoughtful design with practical problem solving. Experienced in developing full-stack MERN applications, AI-powered developer tools, and modern frontend experiences using React, Next.js, and TypeScript. Passionate about creating intuitive interfaces and exploring how AI can be meaningfully integrated into software products.

EXPERIENCE

CSI-CATT Student Chapter

2025 – Present

Tech Team Member

Mumbai

- Conducted a frontend workshop introducing students to Tailwind CSS and modern frontend development.
- Contributed to organizing technical events including Techintitude and GTC through planning and volunteer coordination.
- Collaborated with team members on technical initiatives and community engagement activities.

PROJECTS

MeowPad | Next.js, TypeScript, React, Tailwind CSS, Framer Motion

- Built the complete frontend for an AI-powered developer workspace that bridges the gap between AI-assisted coding and genuine understanding.
- Designed an IDE-inspired interface featuring dockable workspaces, interactive scrollytelling, and responsive UI components.
- Focused on intuitive user experience for complex AI workflows and developer productivity.

Assistly | React, Firebase, Leaflet

- Built a platform connecting people with disabilities to nearby volunteers through location-aware assistance requests.
- Designed a responsive interface prioritizing accessibility, usability, and intuitive navigation.
- Integrated interactive maps and geolocation-based features to improve volunteer coordination.

SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Framer Motion, Shadcn UI

Backend: Node.js, Express.js

Databases: MongoDB, MySQL, Firebase, IndexedDB

Tools: Git, GitHub, VS Code, Postman, Figma, Vercel

Concepts: REST APIs, Progressive Web Apps, Authentication, Responsive Design, UI/UX, Problem Solving

EDUCATION

Datta Meghe College of Engineering

Expected 2028

Bachelor of Engineering (Computer Engineering)

Mumbai

- **CGPA:** 8.7 / 10
- **Languages:** English, Hindi, Bengali
- **Interests:** Product Design, AI Applications, Dance, Gaming
